

## OUR FAMILY MEDICAL CLINICS

For the care and convenience of residents in Stone County and the Poplarville area, Stone County Hospital operates two family medical clinics. Same day appointments are available, and walk-ins are welcome. Most private insurance companies accepted. Our clinic providers treat the patient as a whole by helping them understand the importance of wellness, disease prevention and a healthy lifestyle. For children six months and older, our practitioners focus on prevention of illness, diagnosis and treatment.

## COMMITTED TO QUALITY SERVICE

At Stone County Hospital, our facility represents the best of two worlds. Nestled in quiet Stone County, our hospital is perfectly sized for taking the best care of our patients while still having all the staff, expertise and technology you'd expect from larger hospitals.

Here, you'll find a hospital where patients matter; where doctors practice medicine in a way that lets them get to know their patients, and treat them quickly and accurately.

Our highly skilled medical team utilizes the latest in technology, providing complete family health care close to home. Our 25 bed facility offers inpatient, extended stay, outpatient and clinic services.

Our Emergency Department and Ambulance Service are fully staffed around the clock, while specialized services like Sleep Lab, Recast Therapy and some MRIs are available by appointment.

# **our SERVICES**

## Acute Care Beds

At Stone County Hospital, patients receive quality care for conditions like pneumonia and bronchitis - and loved ones will be nearby to lend support. So why drive long distances to a facility far from home if a short-term hospitalization becomes necessary? It's your choice. Simply tell your physician to choose Stone County Hospital for admittance. Even if your doctor is not a Stone County Hospital physician, he or she can work with one of our physicians to provide the best of care. **Call 601.928.6613.**

## Ambulance/Non-Emergency Transport Service

Stone County Hospital Ambulance Service provides both emergency and non-emergency transport services to a patient's facility of choice. The staff is physician-directed, and all units are equipped at the advanced life support level. **Call 601.528.9115.**

## Cardiopulmonary

Our Cardiopulmonary team works with one goal in mind: to improve quality of life for people with respiratory and cardiac disease. Services include pulmonary function testing, electrocardiogram, 24-hour and 30-day outpatient heart monitoring, ventilator support, respiratory treatments, oxygen saturation testing and monitoring, arterial blood gas collection and analysis and nuclear and non-nuclear cardiac stress testing.

**Open 24/7, Call 601.928.6611.**

## Cardiology

Our cardiologist works with one goal in mind – keeping your heart healthy. Our services include medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease and electrophysiology. With over 20 years of experience in the field, our physician specializes in advanced coronary and venous interventions and acute catheter-based management of deep venous thrombosis and pulmonary embolisms. We also treat complex vascular conditions including critical limb ischemia, peripheral chronic total occlusions, and peripheral arterial disease. **Call 601.261.5700.**

## Emergency Department

Open 24/7, the Stone County Hospital ER has five beds and an outstanding staff to meet your unexpected medical needs. **Call 601.508.6554.**

## Endoscopy

Our Endoscopy Department performs a variety of procedures, including EGDs (upper GI scopes), colonoscopies, bronchoscopies and feeding tubes.

**Call 601.928.6720.**

## Family Clinics

Our two conveniently located clinics offer easy access to a wide range of providers. Patients can schedule an appointment with a surgeon, cardiologist, orthopedic surgeon, podiatrist, urologist, pain interventionist, rehab specialist, family physician or nurse practitioner. Have a sudden symptom or accident? Same day appointments are available and walk-ins are welcome. We accept most major insurance plans.

Stone County Family Medical Clinic **601.928.6700.**

Poplarville Family Medical Clinic **601.795.9320.**

## Laboratory

Our laboratory is equipped with the latest technology and instrumentation needed to serve the public. The laboratory is staffed 24/7 with licensed medical technologists, technicians, and phlebotomists. A variety of testing is available in house in the areas of chemistry, hematology, coagulation, therapeutic drug monitoring, and urinalysis with a greater range of testing available through our reference laboratory. To assist businesses with their urine drug screening needs, the laboratory offers 24/7 collections of DOT or Non-DOT drug screens by certified DOT collectors. Hair follicle collection is available by appointment only Monday through Friday 8 a.m. - 5 p.m. **Call 601.928.6643.**

## Podiatry

Our podiatrist is trained in the treatment of heel pain, arthritis, athlete's foot, bunions, calluses, tumors, warts, hammertoes, tendonitis, ingrown/fungal toenails, sprains/strains and various running injuries. It is recommended that you see a podiatrist if you are experiencing any pain, unusual sensation, or notice something growing on your foot. Through personal consultations, our podiatrist explains what the dysfunction may be and the procedures that can cure or prevent it from spreading.

If you are a diabetic, our podiatrist will work closely with you to monitor the health of your feet to avoid extreme procedures, such as amputation. Our podiatrist works every day to give you the proper medical treatments and simple advice so you may never face such a surgery.

**Call 601.928.6700.**

## Radiology & MRI

Our Radiology Department is a state-of-the-art radiographic center offering many procedures for inpatient, outpatient and critical-need situations: including open MRI, X-ray, cutting edge CT scans, general pelvic and vascular ultrasounds and echocardiograms.

**Call 601.928.6640.**

## Rehabilitation

A full range of rehabilitation services including physical, occupational, speech and athletic training is offered through Stone County Hospital Rehab. Stone County Hospital Rehab is located in the Family Medical Clinic on the Stone County Hospital campus.

**Call 601.928.6740.**

## Sleep Center

Located within the hospital in a quiet, home-like setting, the Sleep Center offers comfortable overnight monitoring of patients with potential sleep disorders. Studies are performed by qualified sleep technicians. Stone County Hospital Sleep Center is accredited by the American Academy of Sleep Medicine.

**Call 866.520.5646.**

## Social Services

At Stone County Hospital, both patients and families will find compassionate help in coping with chronic, acute or terminal illnesses. Social Services can advise caregivers, counsel patients and arrange discharge and post-hospital care through institutions and agencies in the community. **Call 601.928.6738.**

## Surgery

Our surgical services include:

- General Surgery: Including both open and laparoscopic gallbladder, appendectomy, hernias, hemorrhoids, amputations, skin lesions, cysts and biopsies.
- Orthopedic: Knee scopes, carpal tunnel, arthroscopy, trigger finger release and open and closed fractures.
- Ophthalmology: Cataract surgery.
- Podiatry: Including but not limited to bunion repair, hammer toe repair, heel spur removal, amputations and plantar wart removal.
- Urology: Vasectomy, circumcisions, cystoscopy and stent removal.

- Gynecological: Tubal ligations and D&Cs.
- Dental: Tooth extractions and all other dental rehab procedures.

We also offer comprehensive pain management and intervention treatments including: epidural steroid injections of the spine (cervical, thoracic, lumbar, caudal and transforaminal), radiofrequency denervation, joint injections, nerve blocks and trigger point injections.

**Call 601.928.6720.**

## Swing Bed Services

Our staff understands that easing the transition from acute medical care to home care sometimes requires additional help. The Stone County Hospital swing bed program "swings" or transitions patients from acute hospital care to home care. Our team works to help patients achieve the same level of independence enjoyed before having surgery or becoming ill.

**Call 601.928.6613.**

## Wound Care

The providers at SCH work with referring physicians and a specially trained clinical staff to offer a comprehensive treatment plan for chronic wounds. Each patient is evaluated, and a treatment plan is customized for his or her individual needs. This collaborative effort results in patients receiving dedicated, expert care to ensure their wounds heal rapidly and completely so they can return to a healthier, wound-free life. Patients who complete the Wound Care Specialists' treatment protocol have demonstrated a 95 percent healing rate.

**Call 877.295.2273.**

## Women's Health Services / Gynecology

For optimal health in women of all ages, we offer a variety of services. From "Healthy You" annual gynecological screenings, birth control and family planning counseling, and preventative cancer screenings to a full range of osteoporosis treatments. Our Dexascan bone density scans help identify potential bone problems. Recast therapy, along with vitamin supplements, helps strengthen and protect your bones from fracture, enabling you to stay active.
