

WILSON'S WELDING SERVICE, INC.
Fabrication, Painting & Construction

— On Shore and Off Shore —

Family owned and operated for over 35 years

FAMILY OWNED

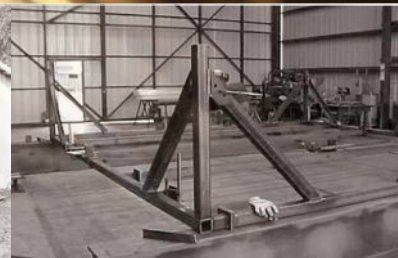

For over 35 years,

Wilson's Welding Service has steadily exceeded customer's expectations from Texas to Florida with its expertise in metal fabrication, construction, painting, and sandblasting, in both on and off shore locations.

Started in 1974 by _____ Wilson, a veteran offshore welder, Wilson's Welding Service is now run by _____'s sons, Terry and Clark Wilson. The company has grown from its humble first shop in Perkinston, Mississippi to its current 10,000+ square foot facility.

The Wilson name and reputation stand for quality workmanship performed in a timely manner and on budget to your exact specifications. When you do business with us, you are guaranteed a product you can trust. Our safety record is unparalleled, and we apply strict quality assurance guidelines to all work performed.

For your next project or bid, please consider Wilson Welding Service. Our knowledgeable and friendly staff will make sure your project is completed quickly and safely while exceeding your expectations.

QUALITY WORK

SAFETY FIRST

Wilson's Welding Service is known as much for its commitment to workplace safety, as it is for the products it makes. It is our policy to provide a safe place of employment and to enforce safe operating practices on all jobsites. Accident prevention is an operating responsibility that is as important to us as the emphasis placed on completing a job on time. This philosophy is carried out at all levels, from the front line worker to the Wilson family senior management.

OUR SERVICES

Whether you want to create a new structure or refurbish an existing one, Wilson's Welding Service should be your first call. Wilson's Welding Service has the equipment, qualified labor, and experienced supervision to fabricate, replicate, and install most any steel structure or object on time AND at a competitive price. We work by contract or by the hour on an 'on call' basis.

Our range of equipment gives us the ability to perform many different types of fabrication services, on and off shore, including:

Steel Structural Fabrication & Installation
Stainless & Carbon Steel Piping
High & Low Pressure Piping System Renewal
Pipe Welding
Structural Welding
Aluminum Welding
Stainless Welding
Millwright Services

Wilson's Welding Service employs an exceptional team of A.B.S. certified pipe and structural welders, fitters, painters, millwrights, and certified supervisors, who safely work in any conditions or elements to get the job done right.

Our quality work can be seen in the following:

Steel buildings
Leg, Hull, & Tank Repair
Living Quarter Modules
Bulkheads
Trolley Beams
Cascade Systems
Air Hoist Foundations
Radiator Foundations
Walkways
Stairways
Ladders

Decks
Crane Boom Rests
Platforms
Manifolds
